Relaxation function

basic system elements

*The eventual size of sleeping area depends on the type of the body, which you will add to the body with the sleeping function

example configurations

Liquor cabinet

Liquor cabinet

Smart solutions

Sleeping functions types:

Type A -DELFIN

Slide the cart from under the furniture item and slightly lift the foam mattress to level up the sleeping surface with the seating area.

Type B -LEOPARD

Slightly lift the front part of the furniture item, then pull it towards you to unfold the seating area. The sleeping part will lift automatically.

Type C -TROLLEY

Slide the cart from under the furniture item, pulling it towards you. Then rotate the seating area to level up the sleeping surface.

Type D -SEDALIFT

Pull out the cart, and then unfold the mattress and the folded foot that supports the structure. A thicker mattress provides an extra comfort.

Type E -BELGIAN FRAME

Resembles a cot in terms of structure, and unfolds like one. The seating part must be removed for the bed to unfold.

Type F -ITALIAN FRAME

Pull the handle on the top of the backrest and unfold the frame which supports the mattress.

Type G -DL

Slide the seating part towards you, and then rest your back to obtain different sleeping positions.

Type H -C.S.T.

This sleeping function unfolds like a traditional sofa bed.

Other functions:

Relaxation function

This function allows you to adjust the tilt angle of the back- and footrest, so that you can rest comfortably in any position, from sitting upright to semi-reclined. The relaxation function can be controlled manually (relying on the user's own strength) or by means of electrical sensors, discreetly placed between the seat and the side of the furniture item. The electric relaxation function can be powered by a battery or an electric mains socket.

Headrests

Thanks to the gradual adjustment of their tilt angle, our headrests provide comfortable support for your neck when reading, watching TV or relaxing. Optionally, the mobile headrests can be moved to any other place.

Liquor cabinet

With cubbyholes opened from the top, drawers sliding out from the front, wooden countertop, which you can use as a coffee table, with countertop upholstered with leather or fabric, triangular or rectangular, with cup holders – there are many types of liquor cabinets which offer plenty of opportunities.

Movable seat

Electrically operated movable seat guarantees the possibility of increasing its depth. The slide-out seat can be successfully used for resting in a sitting and a semi-reclined position.

Explanation of pictograms

	modular system		movable armrests with Safe Mechanism system		liquor cabinet with a box
	sleeping function type A (DELFIN)		movable seat, controlled by electrical sensors		selection of upholstery types (leather or fabric)

	electrically unfolded relaxation function – the armchair is supplied from a battery – no need to have a mains socket		polyurethane foam		plastic legs
	electrically unfolded function RELAX PLUS – the armchair has to be connected with a cable to an electric mains socket		silicone filling in the backrest and / or headrest		wheels
	electrically unfolded function RELAX PLUS – the armchair is supplied from a battery – no need to have a mains socket		wave springs		platform legs
	movable armrests with adjustable tilt angle		Bonell springs		required distance from the wall

Notices:

Actual size of furniture may differ from the size declared in the Manufacturer's commercial offer. The permissible deviation of dimensions from the declared ones is:

- +/- 2 cm if the declared dimension (width, depth or height of the furniture in ready-to-use configuration) is less than or equal to 150 cm,
- +/- 2,5 cm if the declared dimension (width, depth or height of the furniture in ready-to-use configuration) is greater than 150 cm,

- Freestanding items and armchairs with relaxation function available only in leather upholstery.
- Relax upholstery do not fulfill a function of sleeping beds, due to the abovementioned the sleeping function in most of the models should be used rather occasionally.
- The audio panel has been withdrawn from the offer. Although it occurs on selected photos, further sale is no more available.
