

FLIP-TOP and FOLDING conference tables

FEATURES

FLIP-TOP conference tables

- Once the top is flipped, the tables can be stored to save space;
- Because of the folding mechanism and castors, the FLIP-TOP tables are quickly installed and easily reconfigured by users;
- Bolted connections to tabletop (no wood screws);
- Easy to assemble and disassemble - "metal to metal" construction;
- Just one tool for assembling (DIN911 S5).

FOLDING conference tables

- Because of the folding mechanism, the FOLDING tables are quickly installed;
- Once the feet are flipped, the tables can be stored to save space.
