

## BACK IN BALANCE

### Mineral and Biorytmic sleep mattress ticking.

Biorytmic Sleep mattress ticking developed by Sleepist is attained by aligning certain minerals found in nature known for their energy content in a certain geometric composition. Factors like stress from daily life, hard work, sleep deprivation and fatigue result in numerous communication disorders with in the body.

The goal of Biorytmic Sleep mattress ticking is to regulate the poor intra-body communication attributed to any one of these causes, during sleep.

#### 1. BIORYTMIC SLEEP FABRIC

- Supports rejuvenation by improved intra-body communication during sleep.
- Reduces stress level during sleep.
- Helps the body relax.
- Helps you feel better.
- Helps you wake up refreshed.
- Intra-body communication helps improve balance and concentration.
- Improves body conditioning and mechanical balance

#### 2. VISCOGEL MEMORY FOAM

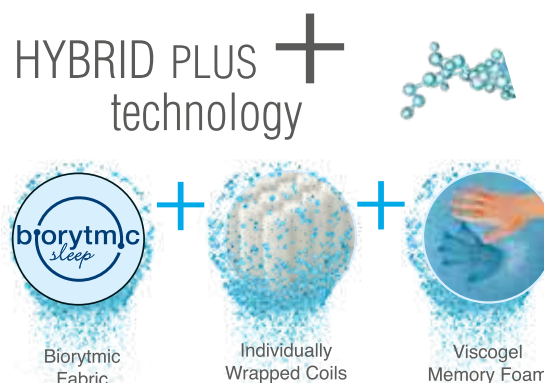

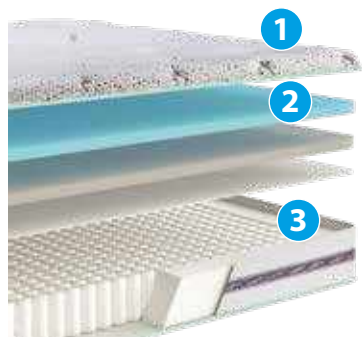

Viscogel memory foam's thermal conduction properties keep you cooler and provide superior comfort compared to ordinary foams.

#### 3. INDIVIDUALLY WRAPPED COILS

Individually wrapped coils provide individual support on pressure points where the body needs it the most. Improved support means more comfort because your spine is aligned in natural form for optimal sleep.

F Q K Mattress Height: 13"

**MULTIPOINT SUPPORT**
